BASS'S INDIA PALE ALE,

FIRST QUALITY.

BOTTLED BY M. B. FOSTER & SONS.

SINCE the Establishment of their business in 1829 Messrs. FOSTER'S shipments abroad have extended to every leading market of the Globe. Their premises for Home and Export trade far exceed in magnitude and perfection those of any other bottler in the world, thereby enabling them to maintain the leading position for which their bottlings have been celebrated "for the last half century."

Messrs. FOSTER have recently adopted the "BUGLE HORN" as a Registered Trade Mark, the same being incorporated with their world renowned "BLACK LABEL." Purchasers are particularly requested to observe the foregoing, which has been adopted for the purpose of guaranteeing the genuineness of the bottling.

2. The Nickel Silver Railway Watch, extra large size..... ,, 60
3. The Pure Silver Railway Watch..... ,, 60
4. The Pure Silver Railway Watch, keyless ..... ,, 70

No trouble and expense is spared in our Manufactory to conserve to these watches their well-deserved popularity.

CAMPAIGN LEVER KEYLESS WATCHES

In plain nickel silver cases. A really cheap but good watch, calculated only to give correct time, and to be strong and durable. The movement is built on the soundest scientific principles, and expense has only been spared there where the quality of the watch would not suffer, such as in the metal of the case, and by omitting unnecessary ornamentation. Therefore its cheapness and therefore its success. Its usefulness as a Campaign watch is fully recognised through the continuous numerous orders we receive from every quarter from the Army in the Field. The Watches are in stock as follows :

In German Silver open crystal face case	Rs. 25
In German Silver hunting case	,, 30
In German Silver half hunting case	,, 35
In German Silver hunting case, extra large strong	,, 32

TRADE MARK—PHOSPHODYNE.

Protected under the Trade Marks Act (38 and 39 Vict., ch. 91). Enacted by the "*Queen's Most Excellent Majesty,*" 20th August, 1875.

Certificates under this Act have been granted to DR. R. D. LALOR, giving him the Sole Right to the Trade Mark PHOSPHODYNE in England, Australia, Africa, China, Canada, and India.

DISCOVERED AND SO NAMED, A.D. 1862, BY R. D. LALOR, M.D.

Pleasant to the Taste. The only Safe, Prompt, and Reliable PHOSPHORIC REMEDY for Overworked Brain, Worry, Anxiety, Excitement, Late Hours, Business Pressure, Nervous Prostration, Wasting Diseases, Asthmatic, Consumptive, Stomach, and Liver Complaints, Impaired Nutrition, Impoverished Blood, Premature Decline, and all Morbid Conditions of the System, dependent upon the deficiency of Vital Force.

PHOSPHODYNE

Purifies and Enriches the Blood; Clears the Skin; Thoroughly Invigorates the Brain, Nerves, and Muscles; Re-energises the Failing Functions of Life, and thus Imparts Energy and Fresh Vitality to the Exhausted Nerve-Electric Force; and Rapidly Cures every form of Nervous Debility, Paralysis, Nervous, Mind, and Heart Diseases, from whatever cause.

IMPORTANT TO EUROPEANS VISITING OR RESIDING IN HOT CLIMATES.—DR. LALOR'S PHOSPHODYNE has an enormous Sale in India, China, Africa, and other Hot Climates, from its possessing in the most perfectly assimilable form the essential Vitalising properties of PHOSPHORUS, which re-animates the Exhausted Functions of Life when impaired by Heat or other causes. A very large number of Testimonials from all parts of the World, freely offered from private persons, Naval, Military, Scientific and Professional Men who are well known, speak of its marvellous powers in Nervous Debility, Want of Stamina, Fevers, Malarious Diseases, and as a Liver Tonic.

SOLD IN BOTTLES AT Rs. 3 EACH.

DR. ROBERT D. LALOR,

OF BAY HOUSE, 32, GAISFORD STREET, LONDON, ENGLAND.

(THE SOLE PROPRIETOR AND ORIGINATOR OF PHOSPHODYNE)

I prepared to Prove the following Facts in any Court of Law in London, England, and I respectfully request Medicine Vendors and the Public to assist the cause of Truth and Right against Falsehood and Fraud.

A BASE FRAUD is being perpetrated by the Advertisement of a Worthless Imitation of DR. LALOR'S PHOSPHODYNE in the Newspaper Press of India and the Colonies, the nature of which may be guessed from the fact that the originators of these Advertisements DO NOT, AND DARE NOT insert them in the Papers Published in the United Kingdom, neither may the Spurious Article, sought to be Foisted upon the Public Abroad, be Sold in the British Isles.

PHOSPHODYNE was Discovered and so named by DR. R. D. LALOR in the year 1862. The Title and Prospectus was duly Entered at Stationers' Hall, London, in the year 1864. This Title, Prospectus, and Four of DR. LALOR'S Testimonials, the dates of which have been Fraudulently altered from 1865, 1866, and 1867, as in the Original Letters, to 1870, have been Basely Pirated by the Parties Advertising the False Phosphodyne. Copies of Original Letters, with Prospectus, sent post free. The Genuine "PHOSPHODYNE" bears the Christian and Surname, with Address, as above; also the Registered Trade Mark, "PHOSPHODYNE," to copy which is Felony.

COMMERCIAL INTELLIGENCE.

FRIDAY EVENING, APRIL 16, 1880.

ARRIVALS of produce from up-country during the week have again been on a very large scale, and a fair export trade has been the result, although the volume of our shipments is still small for the time of the year considering the great quantity of available stuff waiting to go forward. The scarcity of steam tonnage has now to a great extent been got over, the number of steamers ready, and near at hand, being ample to meet the present demand. The extreme dulness of the Home markets is, however, having a depressing influence. The rapid, and to some extent unexpected, decline in Cotton at home has naturally influenced this market, and although prices here have not fallen in proportion to the drop at home, still sales are only feasible at rates considerably below our last quotations. The favourable prospects of the New American Crop, together with the increasing visible supply of Cotton, have together been too much for the market, and what looks very much like a permanent decline has been established; at the same time it must be remembered that we have now passed the time when the visible supply is usually at its highest, and we may now look for a gradual decrease. The markets for Seeds also do not offer much more inducement to shippers to operate, and although prices for Wheat at Home are as yet fairly maintained, great uncertainty exists as to the future action of the 'Ring' in Chicago, which might at any time swamp the Home markets. A meeting has taken place in Sterling Exchange, which, although of advantage to exporters, is acting very unfavourably on importers.

The General Elections having terminated and resulted in an overwhelming Liberal majority, all that now remains is the formation of a New Ministry, and with a New Ministry many anticipate increased activity in trade generally.

MONEY.—Practically there is no change to report in the position of the Money Market here. The Bank of Bombay rates of discount remain as last quoted, but in Calcutta the rates of the Bank of Bengal have been reduced 1 per cent. all round. Supplies of capital in the hands of the Banks, together with shipments of Silver now on the way out, are ample for the requirements for the remainder of our busy season. The last published return of the Bank of Bombay showed an increase in the Cash Balance of about 5½ lacs arising from increased Deposits, and notwithstanding a further slight increase in the trade demand. The Banks rates of interest and discount are still 7 per cent. on the security of Government Paper, and 9 per cent. on Private Bills.

STERLING EXCHANGE.—Last mail-day, owing to the decline in the London quotation for Bar Silver to 52d. per oz., rates here gave way 1-32d. per rupee, and closed on that basis for the mail, the amount of Bills offering, however, was small, as a general feeling prevailed that the market had not reached the bottom, and that lower rates might be looked for during the present week. This has proved to be the case, a rapid decline in the value of Silver at Home has led to a corresponding decline in the rates of Sterling here, where for the season of the year only a very moderate number of Bills have been making. On Monday rates, both here and to Calcutta, gave way 1-16th per rupee, but on Tuesday, with rather more Mercantile Paper offering, the feeling was firmer here in the morning and remained so until the receipt of advices from Calcutta; these being of an unfavourable nature, rates having declined 1-16th per rupee, the feeling here at the close was decidedly easier. On Wednesday there was the usual indisposition to do business until the result of the sales of Council Bills was known, but the feeling throughout the day was weak, and partially 1-32d. per rupee lower.

At the usual biddings for Council Drafts in India in London yesterday the full amount of 45 lacs was allotted on the following terms, viz:—Rs. 27·40,000 to Calcutta, Rs. 10,000 to Madras, and Rs. 17,50,000 to Bombay, at an average rate of 1s. 7·86d. per rupee. Tenders on all three places at 1s. 7 13-16d. per rupee received three per cent. This is the first week since the publication of the Budget that the allotment has been made below the Government estimated minimum rate of 1s. 8d. per rupee, and the result is that a smaller quantity of Bills, viz. 40 lacs is to be offered next week, and if this does not have the desired effect of raising the rates, no doubt a further reduction will be made the following week. It must be remembered that 45 lacs of Bills have been sold every week since the Financial Statement was published in February whereas Government calculations were only based on weekly sales of 39 lacs, so that they already have 48 lacs in hand, and could very well afford to reduce the weekly sales to 35 or even 30 lacs for a time. This fact forms the only strengthening influence in our opinion likely to act on Exchange for some time to come, as our shipping season is drawing to a close, and the Exchange Banks are all amply provided with funds. The effect of the announcement that a reduced amount of Council drafts would be offered next week had a slightly hardening effect on our market yesterday morning, which however quite broke down in the afternoon, when it was known that the Bank of Bengal's rates of discount in Calcutta had been reduced one per cent., and that Exchange there was weaker. To-day the feeling has been rather firmer, although the amount of bills offering has not been very large, and closing rates for Bank Bills show an advance of 1-32d. per rupee on yesterday's closing quotations. Calcutta rates are still slightly below ours, but they more nearly approximate them than they have done of late, and telegrams received late in the day state that they were rising. The closing rates show a decline of ¼th per rupee in Bank Bills and 3-32 per rupee in Mercantile Paper still last mail-day, and are as follows, viz:—Bank Bills on demand 1s. 7 29-32d., 8 months' sight 1s. 8 1-32d., 4 months' sight, 1s. 8 3-32d.; Credits, 3 months' sight 1s. 8 5-32d., 6 months' sight 1s. 8¼d.; Documents, 3 months' sight 1s. 8 3-16d. to 1s. 8 7-32d., 6 months' sight 1s. 8 9-32d. France, 3 months' sight 2·12½ to 2·13 per rupee.

Bar Silver in London has declined almost daily, and is now quoted at 51 13-16d. per oz., against 52 1-16d. per oz. on last mail-day. Shipments of the metal to the extent of £40,000 only are advised viâ Southampton this week, making, however, a total of £160,000 since the commencement of the month in addition to shipments known to have been made from Venice.

On Calcutta, the rate for demand drafts is still 1-16th per cent. discount, and 60 days' sight bills are quoted at Rs. 99 to 99¼.

On China, the quotation for demand Bank Bills is Rs. 224 per 100 dollars.

From Hongkong, the latest telegraphic quotation for 4 months' sight Bank Bills on London is 3s. 9¼d. per dollar, and from Shanghai 5s. 2½d. per tael.

GOVERNMENT SECURITIES.—The market has been fairly steady since the commencement of the week, when a decline of about 1-8th was established. We quote Foure Rs. 95¼. Fours-and-a-half per cent. Rs. 102 5-16 to Rs. 102¾.

SHARES.—The market has been fairly steady during the week, and a moderate business has been done. For Bank Shares there has been some demand at about former rates. Press Companies are almost unchanged in value, a dividend has been declared by the directors of the Berar Company at the rate of Rs. 20 per share. In Land Companies an advance of Rs. 5 per share is reported in Colabas and Rs. 10 in Frees. In Spinning and Weaving Companies an advance of Rs. 5 is reported in Empress, Rs. 20 in Jewraz Balloo, Rs. 5 in Orientals (of which Company a dividend will shortly be declared at the rate of 7 per cent. per annum), and Rs. 5 in Sholapore. Dhurrumseys have declined Rs. 5, New Coorlas Rs. 10 per share, and Prince of Wales Rs. 3 per share. In Miscellaneous Companies the shares of the Bombay Saw Mills have advanced Rs. 15. The Bombay Burmah Trading Company Rs. 20, Treacher and Co. Rs. 5, and Thacker and Co. Rs. 2 per share.

PIECE-GOODS.—Early in the week there was a good enquiry in the bazaar from up-country buyers at previous quotations, but latterly business has been somewhat checked by higher rates being asked by sellers. The average daily sales during the week in the bazaar have been about 350 bales daily, and though this shows a falling off when compared with last week, still there is no doubt that the position of the market is strong. The transactions reported by importers have not been large in Greys, and at the close sellers are offering on rather easier terms. In White Goods a fair business has been done at former rates, some instances rather dearer prices. The decline in Exchange necessitates higher rates being demanded, for goods on the way, but against this the dull state of the Liverpool and Manchester Markets offer little inducement to purchasers to extend their operations. Local-made goods are in moderate demand at about previous quotations.

TWIST.—The market is quiet for Grey Yarns, as stocks of most descriptions are abundant, and dealers are in some instances willing to accept a slight decline. Coloured Yarns are also very plentiful, and the enquiry for them is very slack.

METALS.—For *Copper* there has been rather more enquiry during the week, and prices in the bazaar are 3 annas per cwt. higher, being now quoted at Rs. 50 per cwt., but importers are still offering on lower terms without attracting buyers. *Yellow Metal* is very quiet, the nominal quotation in the bazaar is Rs. 40 per cwt, but there is very little enquiry. *Iron* is very dull, but prices are nominally unchanged.

COALS.—The market is fairly steady, and the following transactions have been reported during the week: viz.:—A Cargo of Cardiff, April sailing, viâ Canal, at Rs. 18¾ per ton alongside; and about 1,800 tons of Laird's Welsh Hartley, April-May sailing, viâ Canal, at Rs. 18 per ton alongside.

The quotations to arrive viâ Canal are:—

Davison's West Hartley	Rs. 18½ per ton.
Laird's Welsh Hartley	,, 18 ,,
Cardiff	,, 18½ ,,

COTTON.—At the time of publishing our last report Mid-Uplands was quoted in Liverpool at 7¼d. per lb. Yesterday's quotation was 7d. per lb., and that for June-July delivery L. M. Uplands was 6 15-16d. per lb. against 7¼d. per lb. a week ago. In Bombay descriptions of Cotton a decline of fully 3-16d. per lb. has been established on the spot, and to arrive they are almost unsaleable. Under these circumstance it is not surprising that a very material decline has taken place in this market, and prices have generally given way Rs. 8 to Rs. 9 per candy all round. M. G. Broach is the exception, and for that the price is only Rs. 3 per candy below our last quotation: this may be accounted for by the fact that it was previously cheap in comparison with other descriptions, and also, which is the main point, large contracts for April delivery are now falling due, and dealers are buying in this market to cover sales made early in the season. The quality of Broach continues very good, but Mowa and Dhowuggur are falling off slightly. The Dhollera and Wadwan crops are on the whole satisfactory, and Cotton to class F. G. F. is arriving freely. Small lots of Sawginned Dharwar are coming in, but we cannot look for large arrivals until next month, and the total outturn this season is likely to be very small, and for the most part of poor quality, being largely mixed with the indigenous variety. In the more Southern districts, however, the quantity and quality are both expected to be a fair average. The total crop of Sawginned Dharwar is not expected to be more than 50,000 to 60,000 bales, of which possibly one-third may reach Bombay before the monsoon. At present, however, the ryots are not selling, and consequently very little of this Cotton is reaching the Coast. The crop of Compta, of which small lots are now coming in, is both full and good, and the best authorities state that a total of 150,000 bales may be looked for, of which, however, only 25,000 to 30,000 bales will be ready for export before the monsoon, and a large proportion will probably be only half cleaned, and unfit for export to Europe at all.

The arrivals in Bombay from up-country during the week have again been very large, amounting to 51,491 bales, and as the great pressure for steam tonnage for this month's shipment to Liverpool is now removed, we may look for a total of very heavy shipments by the end of it. As usual, an early burst of the monsoon is predicted, but this prediction is so very general, and so very rarely verified, that there appears to be no reason to anticipate heavy rains until the second week in June, in which case we see no reason to alter our previous estimates of 750 000 to 800,000 bales as the total clearances of Cotton before that date: these during the past week have been 30,773 bales, making a total of 3,08,731 bales since the 1st January, against 1,88,027 bales at the same time last season.

The *Receipts* from up-country to date show the following comparisons:—

	1880.	1879.	1878.
Week's Receipts	51,491	38,210	36,033
Since 1st Sept.	5,39,704	5,27,132	4,31,283
Since 1st Jan.	5,21,710	4,13,133	3,48,762

The following are to-day's quotations for Full-pressed Cotton, with the equivalents in Sterling, Cost and Freight to Liverpool, viâ Canal, without commission:—

	Per Candy.	Per lb. G. & F.
Good Comra, Ready	Rs. 324 =	5 27/32d.
F.G.F. do. do.	,, 317 =	5 11/16d.
G.F. do. do.	,, 313 =	5 9/16d.
Good M. G. Broach, Ready	,, 241 =	6½d.
,, do. May delivery	,, 239 =	6 3/16d.
,, Dhollera, Ready	,, 226 =	6¼d.
,, do. May ,,	,, 223 =	5 13/16d.
F.G.F. do. Ready	,, 217 =	5 11/16d.
,, do. May ,,	,, 214 =	5 5/8d.
Good S. Dharwar May ,,	,, 224 =	5 27/32d.
G. F. Compta ,,	,, 210 =	5½d.

SEEDS.—*Linseed.*—A decided drop in Exchange, and cheaper Freights, have allowed shippers to operate in this Seed at an advance of 1 to 2 annas per cwt. on our last quotation, and at Rs. 6-4 to Rs. 6-5 per cwt. a fair amount of business had been done. The quality continues very good, and supplies are coming very freely to market. *Rapeseed* is still quite neglected at its previous quotation of Rs. 5-12 per cwt. for Bombay Seed. *Gingelly* is in fair request at Rs. 37 to Rs. 47 per candy according to quality.

WHEAT.—Arrivals are coming to market more freely, and the quality continues very good both of Red and White descriptions. The price for the former is Rs 32 per candy, and for the best descriptions of the latter Rs. 35 to Rs. 36 per candy.

LATEST INTELLIGENCE.

(FROM OUR SPECIAL CORRESPONDENT.)

GENERAL ROSS'S COLUMN.

KABUL, APRIL 15.

The column under General Ross marching to-morrow consists of Infantry—forty-six officers, two thousand seven hundred and forty men; Cavalry—seventeen officers, seven hundred and five men, four guns 6-8th R. A., and the whole of the Hazara Bettle. Maidan will be reached on the 19th.

AUGMENTATION OF ABDUL RAHMAN'S FORCES.

Numbers of men are proceeding to join Abdul Rahman whose force increases daily. The latter is said to be approaching the northern borders of Kohistan, and has written to Khoja Khedari, where Mir Butcha Khoja Jan and their followers are saying that he will arrive before long. This news is received from several sources, and is believed in Ghazni and Logar.

THE CHIEFS AND THE GOVERNMENT POLICY.

The Malik and Chiefs have left Kabul. They are said to be satisfied with the recent announcement of the policy of the Government, and have engaged not to join in any further movements against us. All the interest at present is centred in the movements of Abdul Rahman, and the adherents of Mahomed Jan are deserting him.

No opposition is expected to the march of General Ross. No further tribal disturbances in Kohistan are reported.

(FROM OUR OWN CORRESPONDENTS.)

MAHOMED JAN'S POLICY.

ALLAHABAD, APRIL 16.

Mahomed Jan is supposed to be willing to come to terms with Abdul Rahman whose adherents are increasing in numbers daily. Abdul Rahman's movements create great interest and anxiety in Kabul city.

EXCITEMENT IN KOHISTAN.

Reports from Kohistan show continued excitement. Ten thousand men from Ghorbund and Panjshir arrived on 13th at Kila Khoja Khida Khidra, south-east of Charikar. Khoja Jan entertains them, waiting for instructions from Turkistan. He received a letter on the 12th from Abdul Rahman, announcing an approaching visit to Kohistan, Koh Daman. Letter was sent back, signed by all the Chiefs of Kohistan, saying they would welcome him back, and looked only to him as their sovereign.

FLIGHT OF SHAHBUDIN FROM LUNGAR.

On the 12th General Shahbudin fled from Lungar on to the Ghazni road with a few followers, in order to join Abdul Rahman. Parties of men are daily going north on the same errand.

ABDUL RAHMAN'S ARMAMENT.

Absurd rumours are floating about among the tribesmen regarding Abdul Rahman's armament. As for instance, that he has five thousand leather guns, thirty-five iron guns, two thousand noiseless and smokeless rifles given to him by the Russians, two thousand rockets carrying six miles, and then bursting and poisoning the air all round.

COMMAND OF THE 63RD REGIMENT.

SIMLA, APRIL 16.

It is reported that Colonel Eteson, First Assistant Adjutant General, has been recommended to succeed to the command of the 63rd Regiment, vice Colonel Gordon, deceased.

DISTURBANCES IN THE NALAGHUR HILL STATE.

Fresh disturbances are reported in the Nalaghur Hill State. The Political Superintendent has gone to settle the country.

THE PRESS COMMISSIONERSHIP.

It is rumoured that the Press Commissionership is to be merged in the Foreign Office, Mr. Buckland carrying on the work in addition to special duty. The Foreign Department establishment has been reduced considerably.

THE VICEROY.

The Viceroy is expected to-morrow with his suite.

(FROM THE PRESS COMMISSIONER.)

LORD LYTTON'S PREFERMENT.

SIMLA, APRIL 16.

H. E. the Viceroy has received a telegram from the Prime Minister, informing him that Her Majesty has been graciously pleased to create him Earl of Lytton and Viscount Knebworth.

Arrival.—Nepaul.

MR. H. LUSHINGTON has been permitted to resign the Bengal Civil Service.

THE MAHARANI SURNOMOYE, C. I. E., has given a donation of Rs. 100 towards the publication of medical works in Bengali.

ACCORDING to the local paper, no political importance is attached to the late raid by the Bhutias into the village within our frontier, and Lord Ulick Brown has returned to Darjiling.

ADMISSIONS to the civil overseers' class and to the mechanical overseers' class in the new Engineering College at Howrah are deferred till June next, when the new session of the college will open.

UP to a late hour last night, Dr. Doolittle, who has been removed to Dr. Blanc's bungalow at Breach Candy, continued in a precarious state. Dr. Blanc is in almost constant attendance, but we regret to say that there seems little hope of Dr. Doolittle's recovery.

THE 13th Bengal Lancers are stated to have lost 91 carbines in the recent fire at Kurrum. The total loss to the regiment is estimated at Rs. 32,200, of which Rs. 5,000 is put down as the value of horses lost. It is said it will take a month to get the regiment into a state to take the field.

THE *Englishman* asks, what is to be done for remounts for the native cavalry? The supply from Turkistan and Herat is completely stopped, and, with Abdul Rahman in possession, is not likely to be resumed for some time. The folly of abolishing the studs before proper arrangements were made for keeping up a supply of country cattle is now becoming apparent.

THE murderers of the late Colonel MacDonald, at Michnee, have been for some months under arrest at Peshawar, and no orders have been passed with reference to them. It seems a pity, says the *Civil and Military Gazette*, that summary justice has not been administered in this case, and we may therefore draw the attention of Government to the fact.

WHY, asks the *Indian Daily News*, does not General Roberts make an attack upon the Kohistanis? The gathering at Istalif must be considerable; the Chiefs there must also find themselves safe from molestation, for it is said General Sayad Khan has recently cast two iron guns in the Istalif foundry. If the Afghans have a foundry there, it is worth breaking up.

THE *Civil and Military Gazette* says a sanguine credulity as to an early or pacific solution of the Afghan problem should be now quite impossible to any statesman of whatever party, and even the supposed Liberal programme cannot include a retirement from Kabul which would leave that distracted state the prey to anarchy. The step would merely invite or rather command Russian interference to fill the void we had left.

THE 8th Foot, which has spent the winter at the Peiwar Kotal, is reported to be in splendid condition, and over 900 strong. The 85th King's is also a fine regiment, 770 strong, and up to any amount of campaigning. It is reported that the native regiments are not in such good form. The 20th, 21st and 29th in Western Kurrum could not muster more than 1,500 men between them. The three regiments in East Kurrum are not more than equal to half this strength.

THE general result of the reports of the state of the season and prospect of the crops for the week ending the 15th instant are that rain has fallen during the week in Madras, Bengal, Burma and Assam and has done good to the crops in Bengal; in the other provinces there has been little or no rain. The *rabi* harvest is progressing rapidly and is yielding a satisfactory outturn. Agricultural prospects and public health continue good on the whole.

THE statue of Mr. Eyre Burton Powell, C.S.I., late Director of Public Instruction, Madras, placed in the Presidency College as a tribute of affection and respect by his numerous grateful pupils in Southern India, was unveiled on Tuesday last by His Grace the Duke of Buckingham and Chandos. The ceremony was, according to the *Madras Times*, performed in the midst of one of the largest and most influential assemblies that have come together on public occasions in Madras.

LETTERS from Yarcand, states the *Mail*, report Bishop Fennelly much worse, and that the Doctor in attendance does not entertain much hope of his recovery. Inflammation of the intestines is setting in. For years past the Bishop has been a victim to dyspepsia and it is this disease, in one of its more aggravated forms, that *is* threatening his life. The Right Rev. Dr. Laouenan, Bishop of Pondicherry, passed through Madras on his way to Yarcand to see Bishop Fennelly.

HIS EXCELLENCY the Viceroy and suite proceeded on Monday night by special train *en route* to Simla. His Excellency's departure, says the *Englishman*, did not appear to excite much interest in the minds of the general community, and the streets presented their usual aspect, barring the lines of policemen employed to keep the route clear. A considerable assembly had, however, gathered at Howrah itself, where also great preperations had been made for the occasion.

ACCORDING to a special telegram to the *Englishman*, from Bassien, the cyclone there must have been pretty severe. "At Diamond Island the gale began at noon on the 4th instant, the wind being north-east veering to east. In the afternoon at 5 o'clock the Italian barque Superbo Mareechi drove on shore, and became a dismasted wreck. The crew were all saved. The roofs were blown off the Government buildings. The gale was abating by 11 o'clock, with wind south."

SIR RICHARD TEMPLE's defeat in East Worcestershire, the *Pioneer* says, is but a small surprise amongst the many and great ones of the last few weeks, but his failure will be none the less regretted. His vast experience of every branch of Indian Administration would have been invaluable to a House of Commons and to have such a man in Parliament would be an unmixed benefit to India. But Sir Richard need not regret that, like Cato, he has chosen the losing side. The chance may soon return, and the Governor of Bombay has not been so inactive that he cannot afford to rest on his oars for a while.

THERE was a report in Calcutta on the 14th, states the *Indian Daily News*, that King Theebaw had died from small-pox, and that one hundred women had been sacrificed in consequence at Mandalay. No such news had reached the Burmese Agency, nor had the Government, whose courtesy we have to acknowledge, heard of the King's death. All that is known is that Mr. Aitchison fears the reports in Rangoon of human sacrifices at Mandalay may be true, King Theebaw is known to be suffering from sickness, but more precise information must be waited for. The *Englishman* published the following special telegram from Rangoon on the 13th :—

"The Bhuddist priest here has received a letter from a reliable source stating that King Theebaw has died of small-pox, and that the Maloon Prince, a young lad hitherto carefully hidden, has succeeded him. On Theebaw becoming ill, propitiation to the spirits was made in the form of human sacrifices. This went on nightly for upwards of seven days. The victims, who were principally young girls, are said to exceed one hundred." That journal now states that Government have received a telegram confirming these reports in all respects but one—and that is, the death of Prince Theebaw is not absolutely confirmed.

THE *Pioneer* publishes the full text of Mr. Lepel Griffin's speech in Durbar, to the assembled Chiefs, Khans and Mullicks at Sherpur. Mr. Lepel Griffin reiterates with emphasis what he had already told to most of his hearers in private interviews. But this formal repetition, say, that journal, has a deep significance. The attitude of the Indian Government towards the people of Afghanistan will not undergo a radical change with the change of Ministry in England. The Government has spoken, and has said that the army will not leave Kabul till the country is settled under a ruler who is friendly to the British. The future Amir, whoever he may be, will not be left to the devious promptings of his own mind, or a prey to the intrigues of our enemies. This is the principle that has been vindicated by Lord Lytton—that we can no longer suffer to exist on our frontier the insolent menace of a chief who, treacherously rejecting our friendly protection, seeks to damage and thwart us by intrigues with the Russians. Mr. Lepel Griffin's speech at Sherpur raises the Afghan policy of the Indian Government above the level of party disputes, where we trust it will be allowed to remain. So certain now is the issue of the electoral campaign that the Indian Government would hardly have sanctioned such plain speaking about the future, without some assurance that their words would not be stultified by the Ministry that is coming in.

LIEUT.-GENERAL J. W. ARMSTRONG.

LIEUT.-GENERAL JAMES WELLS ARMSTRONG, C. B, Inspector General of Auxiliary Forces, whose death is announced in our telegraphic news, entered the army in August, 1843, became a Major in 1854, and a Colonel in 1858. He was promoted to Major Geneva in 1868 and became a Lieut. General in October, 1877 He was appointed Deputy Adjutant General of the Auxiliary Forces in November, 1876, and only recently Inspecter General. General Armstrong served with the 17th Regt. in the Crimea from the 19th of May 1855, including the siege and fall of Sebastopol and attacks of the Redan on the 18th June and 8th September. He was also present at the bombardment and surrender of Kinburn, when he received the breet of Major and also the medal with clasp, 5th class of the Medjidie and Turkish medal, for this campaign.

THE VEHAR LAKE.—The height of water in the Vehar Lake for the week ending Saturday, 10th April, was 49 feet and 4 tenths. In the corresponding week last year it was 50 feet and 6 tenths.

BOMBAY UNIVERSITY.—We are requested to state that the meeting of the Faculty of Medicine which was to have been held to-day is postponed by order of the Dean in Medicine to Tuesday, the 20th, at 4-45 p. m.

THE ANNUAL WRESTLING.—We understand that the annual wrestling which used to take place after the Holi holidays are not to take place this year in consequence of permission being withheld by the local authorities.—*Poona Observer.*

ACCIDENT.—Raghunath Rudajee, a cart driver, whilst driving along Chinchpoogly Road on Thursday last, accidentally fell off his cart and one of the wheels passing over his ankle crushed it. He was removed at once to the J. J. Hospital for treatment.

JUVENILE THIEVES.—Two Hindoo lads, Daccoo Ramchunder and Vutmooram Luximon, were yesterday convicted by Mr. W. Webb of stealing Rs. 22 in currency notes and cash belonging to Luximon Rutton. They were each sentenced to receive eight stripes with a light rattan.

DIVINE SERVICE AT BYCULLA.—The hours of Divine Service on Sundays, at the Byculla Church, have been changed. From to-morrow and the Sundays following, the morning service will commence at 7-30 a. m. and the evening service at 6 p. m. There will be daily prayer at half past seven o'clock in the mornings, and Holy Communion every Sunday after the morning service.

THE MAZAGON ASSAULT CASE.—Yesterday, at the Girgaum Police Court, before Mr. W. Webb, the assault case of Mr. Manuel Carvalho, a clerk in the Locomotive Superintendent's Office, G. I. P. Railway, against the two Goanese brothers, Joao Domingo Gonsalves and Jeremiao Gonsalves, both fitters in the same railway, was brought to a close by the two defendants being convicted. Defendant No. 1 was fined Rs. 10 and defendant No. 2 Rs. 15. They were further ordered to be bound over in a sum of Rs. 100 each to keep the peace for six months.

A HANDSOME RECOGNITION.—The firm of Messrs. Jamsetjee Nowrojee and Co., the furniture warehouse-keepers on the Kalbadevie Road, recently forwarded a cheque for Rs. 500 to the Commissioner of Police to be distributed among the members of the Police and Fire Brigade, who were engaged in extinguishing the late fire that occurred in a building adjoining that firm's premises on the Kalbadevie Road. The money was duly distributed by Sir Frank Souter.

THE HUNTER MEMORIAL.—In accordance with the resolution passed at a meeting of his friends and admirers held on the 12th instant, an address will be presented by a deputation of the committee to Dr. Hunter at 11 a. m. to-day, previous to his departure from England by the outgoing mail on his retirement from the Indian Medical Service. The draft address was adopted at a meeting of the committee held at "Byramjee Hall," Mazagon, under the presidency of Dr. Dymock at 5-30 p. m. yesterday.

WILSON'S CIROUS.

THE performance on Thursday night, when Mr Wilson took his benefit, was very well attended, His Excellency the Governor-in-Chief being among the visitors. The programme was an excellent one, and as it comprised several novelties, it was well received by the house. This being the close of the season a request change of programme is promised. The performance to-night is under the patronage of Sir Jamsetjee Jeejeebhoy. Our Parsee readers will no doubt do honour to the head of their community by welcoming him in force at the circus.

THE GRONDONA POISONING CASE.

THE charge under the penal section of, by doing a rash and negligent act, having caused the death of the Chevalier Grondona (late Italian Consul), preferred against Mr. John Bristed, chief assistant in the dispensing department, at Messrs. Kemp & Co., chemists, was to have been gone into at the Fort Police Court yesterday, before the Senior Magistrate. Mr. Bristed, who is on bail, appeared. Mr. Police Superintendent Crummy, however, stated that he had just seen the Public Prosecutor, Mr. Hearn, who told him he had not yet received the necessary instructions from Government in the matter, and asked for an adjournment until Wednesday or Thursday next.

His Worship accordingly remanded the case until Thursday next, the 22nd instant, at 11 o'clock.

THE TROOPS.

THE 1st Madras Light Cavalry will arrive here from Secundrabad by five special trains in five equal detachments—three on the 20th and two on the 21st inst. MR. TEESDALE'S BENEFIT.

WE draw attention to the announcement of the Stage Manager's benefit taking place to-night. Considering all the difficulties Mr. Teesdale has had to contend with, and the fact of his having produced so many fresh plays during the season, in most instances successfully, we hope his exertions will be liberally acknowledged this evening. "Cut off with a Shilling" is the piece chosen, to be followed by the burlesque of "Little Amy Robsart." Major Cowper will appear in the former.

THE MALABAR HILL RESERVOIR CONTRACT.

YET another long discussion took place upon this subject yesterday afternoon, and, with one exception, all the speakers on this occasion were in favour of moderate measures being adopted by the Corporation. The first speaker was Mr. Grattan Geary, who had been unable to finish his address at Thursday's meeting in consequence of an adjournment having been agreed to. Mr. Geary took up the thread of his remarks at this point—that the conduct of the Engineer in not charging the contractor for the Corporation material he had used was not at all irregular, as according to usage, (an example was given) this part of the business should be settled when the final adjustment took place—as provided by the contract. Mr. Geary also said it was much to be regretted that the measurements of Mr. Walton were set aside as untrustworthy, whilst those of Mr. Morris acting for Mr. Forde were accepted as perfectly trustworthy. A member of the Corporation—a professional engineer—had come forward and was willing to support Mr. Walton's measurements, on the ground that he had himself found them to be correct. This evidence Mr. Walton's opponents would not accept, and their assumptions seemed to be that the evidence in favour of the Executive Engineer was necessarily unfounded. As to the quality of the masonry upon which so much turned he argued that the weight of professional opinion was decidedly against the Consulting Engineer and in favour of the Executive Engineer, for some of the most eminent engineers in the country had declared the character of the work to be good, and it would be monstrous to condemn the Engineer in face of such testimony. Mr. Geary, after speaking in terms of praise of the manner in which the Municipal Commissioner had acted in connection with the matter, said the colossal superstructure buils by Mr. Mehta had crumbled to the base under the touch of strict criticism, and people who were capable of weighing evidence, and distinguishing between mere clamourous assertion and facts carefully examined, must be satisfied that only a residuum of neglect was fairly chargeable to Mr. Walton, and was not of a kind to justify his dismissal. Mr. Mehta in his speech had overdone the thing in somewhat the same way as Mr. Parnell had been overdoing it in America; in fact he—as one of the papers had said of Mr. Parnell—"Wabbled too much, slopped over and made a mess" and they who a week ago saw Mr. Mehta wabbling there had been all the week trying to wipe up the mess. This simile was greeted with considerable laughter. In accordance with the suggestion of Mr. Jacoomb the amendment proposed on the previous day was, after some discussion, altered by the elimination of the sentence regarding Mr. Walton's having neglected to pay due attention on to the pecuniary interest of the Council. Mr. Douglas made a short speech in opposition to Mr. Mehta's resolution. He dwelt upon the excellent services which Mr. Walton had rendered to the Corporation on the quality of the work he had carried out, and on the want of evidence to show that there had been anything like culpable neglect. He argued that Mr. Mehta's resolution was unfair, inasmuch as it threw upon Mr. Walton himself the onus of dissolving in connection with the Municipality. Mr. Bapty then in a rather long speech dwelt upon some of the engineering features of the case. He pointed out that the walls of the reservoir were admirably built; that the binders which were said to be necessary to the safety of the walls would, if inserted, have proved a danger; that the rubble work was of superior quality, and the mortar, the most expensive item in the whole thing, was liberally and judiciously used. He ridiculed the idea that Malabar Hill stone ought not to have been used, and speaking as a contractor, supported, on the whole, the action taken by the Executive Engineer. Mr. Pinkerton followed, and he also defended Mr. Walton. He urged that if the Corporation did not adopt the views of the Municipal Commissioner, their refusal to do so would be tantamount to a declaration of a want of confidence in him. Dr. Pinkerton also referred to the open manner in which Mr. Walton made his experiments in testing the Malabar Hill stone, and gave detail several other points, which he contended were in favour of Mr. Walton. Dr. Cowasjee Hormusjee then delivered a speech, in the course of which he observed that the thanks of the Corporation were due to the gentleman who informed the Municipal Commissioner of the facts which led to the enquiry being made, for without his statements they would probably, up to the present moment, have been kept in darkness as to what had happened. This remark was protested against by Mr. Kirkham and several other members of the Corporation, as also was another expression—"that there was a sort of combination" among members of the Corporation,—Mr. Jacomb observing that the remark was most insulting. Dr. Hormusjee then asked how those members, who supported Mr. Mathew's amendment could, if they believed Mr. Walton to be guilty of what was imputed to him by the terms of that amendment, content themselves with simply censuring the Executive Engineer. This was accepted by Mr. Geary as a challenge to introduce an amendment of a milder character, and he therefore made a proposition to the effect that the paragraph in which the Municipal Commissioner in his report gave his opinion of Mr. Walton's conduct should be adopted by the Corporation and officially communicated to Mr. Walton. Mr. Mehta, Mr Dossabhoy, Mr. Nowrojee and others raised objections to the amendment being introduced, on the ground that it was virtually the same as that which had been withdrawn on the previous day by the permission of the Chairman of the Corporation. The Chairman, however, ruled in favour of Mr. Geary. Dr. Blaney afterwards delivered a long and remarkably earnest speech. He pointed out that months had been wasted in the discussion of a matter which ought to have been settled by the Municipal Engineer, and said that he felt he had, as a member of the Corporation, woefully neglected his real duty to the ratepayers, that duty being to watch over the lives and health of the inhabitants of the city. He also declared that the Corporation were asked by Mr. Mehta to do that which was un English, ferocious, and cruel—namely, to dismiss Mr. Walton before his trial. Dr. Blaney expressed an opinion that the evidence given in the blue-book was very superficial, and if the matter were taken into the High Court a large amount of fresh evidence, which they were not permitted to introduce in that Corporation, would be forthcoming. At six o'clock, the meeting was adjourned till 2 o'clock on Monday.

SECOND CRIMINAL SESSIONS.

FIFTH DAY, FRIDAY, APRIL 16.

(Before the Hon'ble MR. JUSTICE BAYLEY.)

THE following case, the last in the calendar, in which the learned judge declined to agree with the verdict of the majority of the jury for an acquittal on the preceding day, was retried before his Lordship and another common jury:—

BEING IN POSSESSION OF A FORGED CURRENCY NOTE.

Goverdhan Petamber and Becher Jeitha were charged with having in their possession a forged currency note for Rs. 100, knowing the same to be forged. Mr. Fox, instructed by the Public Prosecutor, appeared for the prosecution; and Mr. Dhairyavan and Mr. Perozshah M. Mehta for the first and second prisoners respectively. The same witnesses were called for the prosecution who were examined on Thursday last. It is needless to recapitulate the facts of the case that were given by us yesterday. At the close of the enquiry at 5 p. m., the jury retired for consultation and returned into court in about five minutes, when the foreman, in answer to the Clerk of the Crown, stated that the jury were not unanimous, there being eight of them for a conviction, and one for an acquittal. His Lordship, agreeing with the majority of the jury, told the prisoners he had not the least doubt upon the evidence that they were guilty of the offence charged against them. His Lordship saw no reason whatever to distrust any portion of the evidence called for the prosecution. The prisoners were sentenced to rigorous imprisonment for three years each.

This being the last case in the calendar, the second Criminal Sessions were dissolved.

EXPENSES OF A WITNESS IN THE HIGH COURT.

IN the case of the London, Bombay, and Mediterranean Bank against Mahomed Ebrahim Parkar, which is at hearing before Mr. Justice West at the High Court, his Lordship remarked yesterday that a witness, who had been summoned from Bankote and had already given his evidence, had applied for his expenses, and that he should make an order that the witness be paid his expenses by the plaintiffs.

Mr. Starling, who appeared for the plaintiffs, relying upon one of the rules of the Court which he read, said the witness should have asked for his expenses before he was sworn; and that not having done so, he was not entitled to any payment.

The judge said he failed to see the justice of the thing and would make an order that the plaintiffs should pay the witness his expenses.

Mr. Starling said that, in cases like this, the Court had several times before refused to make an order, merely referring the applicant to the solicitors of the party who summoned him.

The Judge.—The title existing, the mere omission of the witness to ask for his expenses before he is sworn cannot deprive him of it.

Mr. Starling.—The witness having been subpœnaed by order of the Court, I shall contend that he is not entitled to a single pie. He ought to have applied for his expenses before he was sworn. He may now sue my clients.

The judge said he could not see the justice of the mere omission to apply at a particular moment depriving a witness of his title.

Mr Starling—The court has acted upon the rule several times.

The Judge—Mention to me an instance.

Mr Starling was not able to remember any instance at the moment.

The Judge—I shall consult my brother judges; but my present disposition is to grant the witness his expenses, to which he is clearly entitled. I am referring to the justice of the case. The man is ordered here by a subpœna of the court, is examined; and he is not to be deprived of his title to his expenses, merely because he did not ask for them before he was sworn.

Mr Starling—No such order has ever before been made on the Original Side of this court.

The matter then dropped.

THE MALABAR HILL RESERVOIR CONTRACT.

THE Bombay Municipal Corporation on Thursday resumed the debate on the Malabar Hill reservoir contracts. Rao Saheb Vishvanath N. Mundlik occupied the chair, and there were also present :—Messrs. Atmaram Pandoorung, James Bapty, Bhugwandass Purshotumdass, T. Blaney, Bomonjee Pestonjee Master, Byramjee Dadabhoy, Byramjee Nusserwanjee Serval, E. B. Carroll, Cowasjee Hormusjee, W. T. Crockett, M. R. de Quadros, John Dixon, Dossabhoy Framjee, Charles Douglas, J. R. Duxbury, Fazulbhoy Cassumbhoy Gangjee, Edwin Richmond Freeborn, Grattan Geary, Goculdass Jugm

way for a time of extricating themselves. He looked upon that as a very great error in diplomacy and judgment. No doubt the inhabitants of Herat would be glad if England were to extend to them her protection, and it would be well if she were to do so. Two distinct lines of policy had been laid down for the Government to pursue; one was to maintain our scientific frontier, with the addition of Candahar, and to get out of the difficulty as quickly as we could, and the other was to take Herat and to annex the whole of the country. He was inclined strongly to the former one. Another policy was to place Persia in the possession of Herat, but that might entail on this country some kind of co-partnership arrangement with Russia, and there was no knowing where our responsibility would end. His lordship asked for more information as to the views of the Government before Parliament was finally dissolved.

Lord Stanley of Alderley alluded to an alliance with Persia with regard to Herat.

Lord Blentyre thought that England should annex the whole of Afghanistan so that the inhabitants might be placed under our civilising influence.

Viscount Cranbrook said that the noble lords who had spoken apparently evolved schemes and plans out of their own consciousness. No doubt their suggestions were worthy of great consideration, but probably they might think differently if they had to deal with actual causes and effects, of which they took no account in the speeches they were pleased to make. He was glad the noble earl (Dunraven) had evaded the past history of the war, and had directed their attention to what was now to be done. The Government, in the Queen's Speech, announced practically that it was their intention to go upon the Treaty of Gundamak, and that policy they had maintained. It would be impossible, however, for them to lay down any definite frontier until they saw how events disposed themselves. They had endeavoured to lay down the frontier with great distinctness, and that was proceeding when the gallant Cavagnari was killed. Cabul, he might say, was not selected by the Government as the central point, but it was the choice of Yakoob Khan, and it was in deference to his wishes that the British envoy was sent there. Nor was it contemplated at the time that such dangers would surround him. That there was a deep-rooted hostility against us was evident from the attack on the Residency. There was abundant evidence as to the deficiencies of native envoys, and it was notorious that their reports were revised by the Courts to which they were sent. Assuming the Ameer could have protected the envoy, India would have been in a better position with that country then it had ever been before, but unhappily it did not take place. Rumours prevailed in all directions. There were telegrams announcing pacification, and there were telegrams of a very different nature; and it would be very foolish at such a point as the present when the passes were opened that we should arrive at a conclusion. It was sowing time. That was important to the people, for if they were not in a position to sow they could not reap, and that gave us an advantage in regard to movements. With respect to Herat, it was not of that infinite important which many had attributed to it, and now that we were in possession of the different passes it became of much less importance that it had been on any previous occasion. As to the civilisation of Central Asia, more steps had been taken within the last few years than had ever been taken before by pressing on railways which had already reached Afghanistan. Railways would be further developed, and he looked forward to the time when they they would extend in the direction of Herat. The noble earl had condemned understandings with Russia. We had no understanding with Russia on that subject. The noble earl had asked if we had any arrangement with Persia. There was no arrangement with Persia with respect to Heart. He had not the least doubt that Persia, would be extremely glad to be in possession of Herat, and there were certain arrangements which might make a tender of Herat to Persia not so dangerous as might be supposed. But those questions were left unsolved at this period. He looked forward with great hope to a pacification of Afghanistan, and to its being governed by rules of its own without any interference on our part in the internal affairs of the country. (Hear, hear.)

COLONEL SYNGE'S CAPTURE.

THE telegram which we publish, says the *Daily News* of March 22nd from our correspondent at Salonica explains the difficulties which beset the liberation of Colonel Synge. The redoubtable Nico appears to have for the moment abated his manly rage with respect to the ears and other appurtenances of his victim, and terms are in process of arrangement. But Nico appears also to be a man of family affection, and from this peculiarity of his, difficulties have arisen. Besides the ransom, he demands the liberation of three of his relations who have had trouble with the law. Two of these are in Turkish gaols, and there is no difficulty with respect to them. But the third, Nico's brother, is in custody at Lamia, in Greece, and the Greek Government, perhaps not unnaturally, requires a little persuason to give him up. Meanwhile the brigands profiting by the forced inaction of the Turkish troops from fear of harming Colonel Synge, are indulging in active pursuit of their vocation around the classic summits of Olympus. This account illustrates pretty clearly the truth of the opinion that, until the Greek and Turkish Governments lay their heads together seriously for the extirpation of brigandage, brigandage will continue to flourish. A difficult and mountainous frontier, with the authorities on either side not too well disposed to one another, has always been the favourite locality of such gentry. The fact that relatives of Nico, and presumably members of his band, are in custody on both sides of the frontier militates against the notion which we sometimes hear expressed, that it is all repression on the Greek side and all connivance on the Turkish. On the other hand, this sufficiently hard on the Greeks to have give up an offender against their laws because of an offence committed against the laws of another country. It is sufficiently degrading that the representative of Great Britain should have to bargain and traffic on these scoundrels at all, and when Colonel Synge is in safety it may be well to see whether by sufficiently obvious means security cannot be had that nobody else shall be in danger.

ALLAN'S ANTI-FAT.

ALLAN'S ANTI-FAT.

ALLAN'S ANTI-FAT.

ALLAN'S ANTI-FAT.

ALLAN'S ANTI-FAT (Trade Mark "Anti Fat," registered) is the celebrated American remedy for corpulency. It is purely vegetable, being a compounded concentrated fluid extract of sea lichens, and is perfectly harmless. No particular change of diet required. Will reduce a fat person from 5lb. to 5lb. a week. It acts upon the food in the stomach, preventing its conversion into fat. "Corpulency is not only a disease of itself, but the harbinger of others," wrote Hipocrates 2,000 years ago, and what was true then is not less so to-day. The consequences of obesity are often more serious than is generally supposed. The thick accumulations of fat in the tissues mechanically oppress adjacent organs, thereby producing dyspnœa (shortness of breath) and disturbances in the circulation, characterised by palpitation of the heart, fainting, determination of blood to the brain, derangements of the stomach, liver, kindneys, uterus, &c. In consequence of the congestion of the stomach, the patient becomes dyspeptic and is tormented with flatulency, acidity of the stomach, and eructations. The impediments to a free circulation of the blood, and the increased pressure of the masses of fat throughout the system on the blood-vessels, produce a determination of blood to the brain, whence arise somnolency, torpor of the mental and physical functions, and not infrequently apoplexy. Obesity is undoubtedly a not infrequent cause of fatty degeneration of the heart and liver. Speaking of the heart, a late author says:—"Some of the instances of sudden death of fat people may be reasonably ascribed to a rupture of the organ in this weakened state."

ALLAN'S ANTI-FAT. is endorsed by those eminent in the medical profession.

THOMAS FAIRBANK, M.D., of Windsor, Surgeon to her Majesty the Queen, referring to ANTI-FAT in the "British Medical Journal," of June 7, 1879, says:—"I gave some of this extract (Fucus Vesiculosus) to a very corpulent lady, who in three months lost three stones in weight without any change of diet. Since then I have frequently given it for reducing weight depending on the accumulation of adipose tissue, and have never found it fail. I may state that a patient who has been lately taking it as an anti-fat, and who always suffered very much from rheumatic pains about the body, has been entirely free from such trouble while she has been taking the extract, a fact while she quite independently noted."

ALLAN'S ANTI-FAT Reduces a Lady Four Pounds per Week,

"Manchester-square, London, Sept. 30, 1879.

"The Botanic Medicine Co., Great Russell-street-buildings, London, W.C.

"Gentlemen,—My mother has used your ANTI-FAT for over three months and has found it to reduce her on the average of four pounds per week. She has commended it to several friends. —Yours truly,

"W. C. UPTON."

ALLAN'S ANTI-FAT. is endorsed by Messrs. Johnson and Oldham, Chemists, of Dublin, who write the Botanic Medicine Company, under date of Sept. 9, 1879:—"We sell a good deal of your ANTI-FAT, and hear favorable accounts on every side, one gentleman, a magistrate in the North of Ireland, having told us that it reduced him fourteen pounds within a month.

ALLAN'S ANTI-FAT reduces 9lbs. in Four Weeks.

Edward Parrett, Esq., Chemist of Market-square, Winslow, writes the Botanic Medicine Company, under date of June 13th, 1879:—

"One lady to whom I have sold Allan's Anti-Fat has decreased 9lbs. in four Weeks."

Thomas Newbould, Esq., Chemist, of Bradford, writes the Botanic Medicine Company, under date of June 11, 1879:—

"The gentleman for whom I obtained four bottles of Allan's Anti-Fat has derived great benefit from the same, and has recommended it to a friend. Please send me one dozen at once."

C. J. Arblaster, Esq., Chemist, of Birmingham, writes, under date of June 4, 1879:—

"Have just received a capital account of the effects of Anti-Fat in reducing corpulency."

ALLAN'S ANTI-FAT gives satisfaction.

T. L. Reeve, Esq., of Birmingham, writes the Botanic Medicine Company, under date of July 1, 1879:—

"A gentleman having used one dozen bottles of ALLAN'S ANTI-FAT, reports a satisfactory reduction."

J. A. Steward, Esq., of Worcester, writes to the Botanic Medicine Company, under date of June 18, 1879:—

"Three bottles of ANTI-FAT have produced a wonderful effect."

Herr F. Arnott, of the Elbe, Prussia, writes the Botanic Medicine Company, under date of July 15, 1879:—

"I have much pleasure to inform you that by taking six bottles of your ALLAN'S ANTI-FAT, I am ten pounds lighter.

ALLAN'S ANTI-FAT Reduces 5lbs. a Week.

22, Redcliffe-street, South Kensington, S. W., June 2d, 1879.

"To the Proprietors of Allan's Anti-Fat.

"Gentlemen,—I have tried your Wonderful medicine Anti-Fat both in America and this country. Through its use I can thin down at command, losing on an average five pounds per week—Yours respectfully.

HARRY BRAHAM."

DR. BRIGHT'S PHOSPHODYNE.

THE NEW CURATIVE AGENT, AND ONLY RELIABLE REMEDY FOR INDIGESTION, NERVOUS AND LIVER COMPLAINTS AND ALL FUNCTIONAL DERANGEMENTS.

Until the introduction of DR. BRIGHT'S Phosphodyne, 1869, Phosphorus was but seldom prescribed as a Medicine owing to the difficulty in so preparing it that its action could be kept under perfect control. It had been used in Almond and Olive Oils, in Sulphuric Ether, in rectified Alcohol, in Chloroform, and in several advertised medicines, but in all the hitherto known methods of its preparation, certain irregular results have been experienced, which have led Physicians to neglect it for general purposes, and to employ it in extreme cases. But in the form of Dr. Bright's Phosphodyne, its invaluable action on the human system is realised without any of those drawbacks which previous modes of preparation have invariably produced.

BASE FRAUD AND PIRACY!!!

☞CAUTION—Beware of a WORTHLESS IMITATION advertised in a few Indian Newspapers. Dr. Bright's (the only Genuine) Phosphoyne is the safest and most reliable preparation of Phosphorus and the only medicine of that name recommended by the Medical Faculty. The Trade Mark, Label, &c., of DR. BRIGHT'S PHOSPHODYNE are duly entered at Stationers' Hall, London, and are also Registered in the chief cities of the World. Vendors of the Fraudulent Imitation in the United Kingdom, India, China, or the Colonies will be prosecuted without further notice.

Dr. Bright's Phosphodyne is acknowledged by the first medical men in Europe, by whom it is recommended as the most efficacious medicine hitherto discovered for Weak and Shattered Constitutions, Nervous Debility, Aversion or Incapacity for Study, Trembling of the Limbs, Indigestion, Female Complaints, Flatulence, Liver Complaints, Shortness of Breath, Drowsiness, Pains in the Head, Pimples, Impoverished Blood, and all diseases caused by a long residence in tropical climates, for which iron, mercury, iodide of potass, &c, are given in various forms, often to the destruction of the patient's health.

The beneficial effects of the Phosphodyne are frequently shown from the first day of its administration, by a remarkable increase of nervous power, with a feeling of vigour and comfort, entirely overcoming that dull, inactive, and sluggish disposition which many persons experience in all their actions.

DR. BRIGHT'S PHOSPHODYNE

Is sold in cases only by all Chemists and Patent Medicine Vendors throughout the Globe.

Full Directions for use in the English, French, German, Italian, Dutch, Spanish, Portuguese, Russian, Danish, Turkish, Persian, Hindustani, Madrasee, Bengalee, Chinese and Japanese Languages, accompany each case.

CAUTION—Purchasers of this medicine should be careful to observe that the words "Dr. Bright's Phosphodyne" are blown in the bottle, and that the directions for use are printed in all the languages as above, without which none can possibly be genuine Phosphodyne. Every Case bears the Trade Mark and Signature of Patentee.
